## Education

---

### JECRC University, Jaipur

B.Tech in Computer Science and Engineering

CGPA: 9.21/10, 2021 – 2025

Pilani Public School, Pilani

2019 – 2020

## Experience

---

### Codesoft

#### Web Developer Intern

Aug 2023 – Sep 2023, Jaipur

- Developed a responsive portfolio showcasing company projects and achievements.
- Designed and implemented a functional calculator web application with interactive features.

## Projects

---

### Attendance Management System

[Project Link](#)

Developed an online, responsive website that enables faculty to securely log in, manage classes, and mark student attendance efficiently. The system includes features like attendance tracking, daily reports, and role-based access to ensure data privacy and ease of use. *Technologies Used:* HTML, CSS, JavaScript, and MySQL.

### Weather Forecast

[Project Link](#)

Created a weather forecasting application that provides users with accurate, real-time weather information for different locations. Users can search for any city to view current weather conditions, temperature, and more. *Technologies Used:* JavaScript, HTML, CSS, API Integration.

### Currency Converter

[Project Link](#)

Developed a dynamic currency converter web application that allows users to convert amounts between multiple currencies using real-time exchange rates fetched from an external API. *Technologies Used:* JavaScript, HTML, CSS, API Integration

### EduQuest

[Project Link](#)

Built an interactive e-learning platform that allows users to access a wide range of courses with a seamless and engaging user experience. The platform offers advanced filtering and search features, enabling users to find courses based on topics, difficulty level, and personal interests. *Technologies Used:* HTML, CSS, JavaScript, and responsive design principles.

## Key Achievements

---

- **ServiceNow Certified System Administrator (CSA):** Demonstrates proficiency in ServiceNow platform fundamentals, including user administration, process automation, and service catalog configuration, as well as core IT service management processes such as incident, problem, and change management.
- **Certified Application Developer (CAD):** Validates expertise in developing and deploying applications within the ServiceNow platform, covering topics such as data model design, UI development, scripting, workflow automation, and security controls.

## Skills

---

**Languages:** C++, HTML, CSS, JavaScript, SQL

**Technologies/Frameworks:** API Integration
